Audience interaction and participation are strongly encouraged. The topics may be technical in nature or may address other issues such as education, business, history and career development.

General Guidelines:

1. Each panel session runs for 1 hour 15 minutes during the lunch break. A panel moderator should be designated to introduce the panel topic and guide the discussions. After the introduction, each panelist is given a block of time to state his/her point of view. The balance of time should be devoted to lively debate among the panelists with audience participation.
2. Panel proposal submissions will be reviewed by the appropriate committee members. The responsible organizers will be informed directly by the Panel Session Chair if their proposals were accepted or rejected.
3. All organizers and speakers will be required to register for at least one day of the conference. No financial support for travel or lodging will be provided.
